

WORLD MISSION HIGH SCHOOL

L5 MULTIMEDIA PRODUCTION

HOMEWORK OF MOTION GRAPHICS

1. How would you use keyframes to make a logo move smoothly from the left side of the screen to the right? Explain the steps you would follow.
/5Marks
2. If your text animation looks too fast, what changes would you make in After Effects to slow it down while keeping it smooth? **/5Marks**
3. When comparing the Position, Scale, and Opacity properties, how does each one change the look and feel of a motion graphic animation?
/10Marks
4. Why is it important to organize layers and name them clearly in After Effects? Explain how poor organization can affect your motion graphics workflow. **/10Marks**
5. You have created two different motion graphic intros for a video. Identify the criteria would you use to decide which intro is better. **/10Marks**
