

## L5 MULTIMEDIA SOUND REINFORCEMENT

### **Analyse these scenarios and explain which audio cable to use**

1. You're setting up a recording studio, and you need to connect a microphone to an audio interface.
2. You are organizing audio connections for a live band performance with multiple instruments and microphones.
3. You're preparing for a guitar performance, and you need to connect your electric guitar to an amplifier.
4. You're setting up a sound system for an event, and you need to connect speakers to an audio amplifier.
5. You are configuring audio equipment in a recording studio, and you need to connect various devices such as synthesizers and processors.
