

C PROGRAMMING HOMEWORK

1. Write a program that checks whether someone is allowed to vote or not by using ternary expression

Note: You will be allowed to vote if you are 18 years old or above

2. Write a C program to check whether number is even number or odd number

For example: if variable has 5, then display 5 is odd number, if variable has 6 then display 6 is even number

3. Write a C program that makes a simple calculator by using switch case

For example: use arithmetic operators (+, -, * /) to perform calculation of a given numbers
