L4 MULTIMEDIA PRODUCTION

ADVANCED DRAWING

A rough sketch is a preliminary or initial drawing that is not highly detailed or refined. It serves as a basic representation or outline of an idea, concept, object, or scene. Rough sketches are typically created quickly and are not intended to be polished or finished works of art. They are often used as a starting point for more detailed and refined artwork, design, or planning. Rough sketches can be done with various drawing materials, such as pencils, charcoal, or digital drawing tools.

Depending on your own idea create five (5) rough sketches for five object you choose and use construction lines to draw your rough sketches.

NB:

1. To be submitted not Later than on Monday 20/11/2023, 8:00 AM in sketch paper and draw using pencils or other drawing tools of your choice
