

L4 Multimedia Homework Audio Production

WORLD MISSION HIGH SCHOOL

Landry is a sound engineer tasked with producing a podcast recorded in a crowded coffee shop.

Question 1.

Discuss how each of the listed audio effects would help enhance the podcast's overall quality despite the challenging recording environment.

- *Noise Reduction*
- *Compression*
- *Modulation*
- *Pitch Adjustment*
- *Pitch Correction*
- *Reverb*

Question 2.

Also, explain the role of special effects like Filters and EQ, along with Echo and Delay, in optimizing the audio for a clear, professional-sounding podcast
